SQL | SSRS

RECENT EXPERIENCE

CLAYTON COUNTY BOARD OF COMMISSIONERS

September 2020 – December 2020

Worked alongside a Project Manager and Business Intelligence Analyst on jury data and services for the Clayton County Court System. Became extremely familiar with SQL Server Management Studio, Microsoft Visual Studio, SQL Server Reporting Services, React, and Agile product development.

ARDUINO RESEARCH

January 2020 – February 2020

Research with a professor to adapt knowledge in a different facet. Interacted digitally with the physical world. Major focus on the human-computer interaction. Use of sensors, timers and interrupts, and interface/UX design.

EDUCATION – OBERLIN COLLEGE

PURSUING DEGREE IN COMPUTER SCIENCE JUNIOR, GRADUATION MAY 2022

While pursuing my Bachelor's degree I am also proud to acknowledge being a College Football Player and taking apart of on campus organizations. Being the Treasurer for the Black Student Athlete Group on campus has also applied and refined my leadership and communication skills.

TOP PROJECT

OberPoll

- Website created for polling campus population in a central environment.
- Tools/Tech Used: Flask (Python), React (JavaScript), SQLAlchemy
- Worked on the front-end handling communication with RESTful API to create a seamless interaction with data for the user
